owned lands, with the exception of float tubes (a small one-person watercraft or flotation device, typically based on an inflatable tube that fits around the user's abdomen).

- Lost Lake- T32N, R1W, Section 2 and 3 (Otsego County)
No camping within 600 feet of lake
No motorized or non-motorized watercraft may be launched onto lake from State-owned lands, with the exception of float tubes (a small one-person watercraft or flotation device, typically based on an inflatable tube that fits around the user's abdomen).
- North Twin Lake- T32N, R1W, Section 10 (Otsego County)
No camping within 600 feet of lake
No motorized or non-motorized watercraft may be launched onto lake from State-owned lands, with the exception of float tubes (a small one-person watercraft or flotation device, typically based on an inflatable tube that fits around the user's abdomen).
- South Twin Lake- T32N, R1W, Section 10 (Otsego County)
No camping within 600 feet of lake
No motorized or non-motorized watercraft may be launched onto lake from State-owned lands, with the exception of float tubes (a small one-person watercraft or flotation device, typically based on an inflatable tube that fits around the user's abdomen).

These regulations are needed because special research regulations that make it unlawful to fish in these seven sinkhole lakes will be lifted in early April 2008. The restrictions on the type of watercraft that may be launched from State-owned land are being proposed to address potential soil and bank erosion that can be caused by the dragging of watercraft along the banks to gain access to the lakes. The proposed camping restriction is to reduce erosion problems created by campers accessing the water and to reduce litter problems.

These watercraft and camping restrictions have been agreed upon by all Divisions and the Pigeon River Advisory Council.

Recommendation:

This order was submitted for information on March 6, 2008, at the Natural Resources Commission Meeting. This item appeared on the Department's February 25, 2008 calendar and may be eligible for approval on April 10, 2008.
